

## CIKSTORM

### REACTION CENTRIFUGAL FAN PLUG FOR INDUSTRIAL APPLICATIONS

#### MANUFACTURING FEATURES

- Centrifugal fan of medium pressure direct coupling type plug fan.
- Square frame made of carbon laminated steel, protected against corrosion by coating C3 finished paint.
- Self-cleaning turbine and reinforced impeller of high performance backward blades made of carbon laminated steel dynamically balanced to minimize noise and vibrations. C3 black paint.
- IE3 motor for continuous operation (S1). Standardized asynchronous squirrel cage motor with IP-55 protection and class F electrical isolation. Standard voltages 230/400V 50Hz for three-phase motors up to 4kW and 400/690V 50Hz for higher powers.
- Motor with flange (B5) and airtight shaft.
- Maximum continuous working temperature: ambient (motor): 60°C.
- Suitable for transferring gases from -40°C to 120°C continuously.

#### APPLICATIONS

Plug fan installation for gas recirculation in:

- Integrated in Machinery
- Paint booths
- Dryers of tobacco leaves, barley, ceramics, glass, wood
- Odor control in industry
- Indoor / outdoor pollution control
- Clean air drive and renewal
- Big buildings
- Malls
- Factories / Industrial buildings
- Warehouses
- Manufacture and treatment of chemical products.

#### UNDER REQUEST

- Fans for special voltages
- Refrigeration roll
- 2 speed motor
- C5 corrosion protection
- Anti-caloric paint
- Inox 304
- Inox 316
- Spark construction
- Other construction sizes
- Other motors according to customer requirements
